How to Order

Orders can be placed through your local distributor or directly with Demand Products. Call 800-325-7540 for assistance locating a distributor in your area. Our operating hours are from 8:00am to 5:00pm (EST), Monday through Friday. Orders can be placed online, emailed to sales@demandproducts.com or faxed to 888-534-8383, 24 hours a day. All prices are in US dollars and are subject to change without notice.

Return Policy

Demand Products Inc., will accept the return of merchandise for exchange or credit only with advance written authorization. Returned materials will be credited at the actual cost paid as determined by the proof of purchase, LESS ALL FREIGHT COSTS paid by Demand Products Inc. We do not accept returns on chemicals or coatings and some electronics.

Returns must be made within 15 days of invoice and must be in new, re-stockable condition upon receipt. Materials returned must be shipped prepaid. Discontinued items and custom orders cannot be returned. Returns subject to minimum 15% restocking fee.

Warranty

All of our products carry an unconditional 6 month guarantee. Demand Products must be notified within 48 hours of receipt of defective or damaged merchandise or shortages. Any equipment or tools that are disassembled without prior written consent from Demand Products will have the warranty voided. Defective products will either be replaced or repaired at no charge. Abused tools will be repaired and returned only if the customer consents to charges. The maximum amount of Liability Demand Products Inc., shall have is the actual purchase price of products obtained through this catalog.

Proper Operation and Maintenance. Buyer must properly operate and maintain the product, including parts and accessories, in compliance with all operation and maintenance instructions, in normal use, and in good condition and repair.

Authorization for modification. Buyer must obtain written authorization from Demand Products before making any modification of any product, part or accessory.

Freight Policy

In case any SHORTAGE OR DAMAGE incurred during transportation is detected, notify the delivering transportation agent and Demand Products Inc., immediately. If Customer has paid the freight bills, Customer must file a claim immediately, within 5 calendar days from receipt of goods, or risk losing any recovery. Our responsibility for delivery of goods ends when we have our signed Bill of Lading by our local transportation agent. Upon Customer request, replacement shipment will be made subject to general terms and conditions as a new order.

Force Majeure

Demand Products, Inc shall not incur liability in the event that it is delayed in its performance of its obligations by force majeure.

Please Note — Disclaimer

When we opened our doors in 1983, we offered fasteners, a small selection of hand tools and 10+ years of knowledge gained working in the field. Today we carry more than 1000 products. Our experience working side by side with architects and contractors kept us focused on quality throughout the entire process.

Quality tools are vital to the success of every project. They are the foundation of the building process. Only the best tools yield the best results. That’s why we take the time to ensure every item offered by Demand Products is of the highest quality.

You rely on our experience and knowledge to guide you to the right products for your job. For this reason, we make sure everyone at Demand Products meets those same high quality standards. Just as our tools always outperform the competition, you’ll find the same holds true with our team. Everyone goes the extra mile to deliver quality results.

Call today and let us help you find the high quality products you need for your next job.

In an effort to help our customers save money, we’ve created Smart Kits for our best selling tools and products. Look for this Smart Kit logo when you place your next order.

These spacing patterns are general guidelines for mechanical installation of EPS to different substrates when used in conjunction with a typical EIFS system or similar systems. Construction projects vary and yours may be different from these fastener suggestions. Please consult your EIFS manufacturer when using Demand fasteners along with adhesives. For additional information call Demand Products Technical Services at 1-800-325-7540.

**WIND LOAD SPECS**

Testing was performed by Underwriters Laboratories per ASTM E330 and E331. Procedure B.

**PBH Washers**

| Fastener Pull-Through Results in Average Pounds Ultimate |
|---|---|---|---|
| Tapcon Dec-King S-12 |
| 401 | 410 | 427 |

| Insulation Pull-Over Results in Aver. Pounds Ultimate (1 Lb Density EPS) |
|---|---|---|---|
| 1" | 1 1/2" | 2" |
| 85.6 | 93.6 | 108 |

The 2" diameter of PBH Washers increases wind load resistance and has 25% more pullover value than 1 3⁄4" washers. Structural performance tests conducted with ASTM E-330. Average ultimate negative load was -97 PSF.

**DP300 Washers**

- Diameter: 1 3/4"
- Material: Polypropylene
- Push Through @ 10° 256 lbs.
- Push Through @ 180° 177 lbs.
- Pull Over 50.8 lbs. @ 10°
- Pull Over 122.4 lbs. @ 180°

* Note 1: Masonry must be pre-drilled 1/2" deeper than fastener penetration.
* Note 2: Hardness of masonry varies and the standard drill bit may not always drill the adequate hole. Consult Demand Products for assistance in proper drill bit diameter.

Please Note: The pullout values listed are the ultimate averages achieved under laboratory conditions. An appropriate safety margin factor should be applied to these values to achieve a design value.

SCREW PULLOUT PERFORMANCE DATA

Coating: DegraShield™ for masonry / concrete fasteners only.
Corrosion Resistance: Kestemich Results (Din 50018, 2.OL) • 30 cycles - 10% or less red rust.
Salt Spray Results (ASTM B117) • 720 Hours - 10% or less red rust.

Hollow Block
Conforms to ASTM C-954 & C-548

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In ten months of testing by professional contractors, paper can’t begin to compare with the dramatic performance of the DuraRasp! 12-grit proved to be only marginally better than 16-grit, but still no comparison to the DuraRasp.
**DURAVAC™ RASP**

Static Mixer w/ Air Atomizing Tip Comes w/ Each Cartridge

- Environmentally Safe
- Contains no VOC’s
- Coating is Paintable
- Color is Neutral
- Dries in 7 Minutes at 70°
- May be Painted After 7 Minutes
- Six 750 ml Cartridges will Cover 127 Sq Ft. at 30 mils
- 100% Solids, Two-component Aromatic Polyurethane
- Smooth Finish

**Compressor Requirements:** Standard 5 hp compressor, with a 20 gallon tank capable of 10 to 12 CFM. For optimum performance, the supply pressure must be greater than 100 P.S.I. and less than 145 P.S.I. Protective clothing, eye and breathing devices should be worn.
**SPECIALTY COATINGS CEMENT TEXTURE**

**THEATER MAGIC**

Cementitious Stucco Finish

Add Water and Mix. Cementitious coating. Combination of Portland Cement, Polymers & Sand. For either interior or exterior trim surfaces. Developed for EPS foam. Dries Gray. Use trowel or spray. Covers 90-100 sq. ft. at 1/8” to 3/16”.

**2-PART HAND-APPLIED HARD SHELL COATINGS**

**LIQUID ROCK™**

2-Part Epoxy

Liquid Rock is a 2-part epoxy based coating that can be applied on interior surfaces. It has extraordinary flow characteristics. It leaves a hard glossy smooth shell finish. It works well on props and backdrops when a hard finish is preferred. It can be brushed or rolled. Average working time is 20-25 minutes. 1 gallon covers approximately 320 sq. ft at 5 mil thickness. Dries off-white and can be painted.

**URESHELL™**

2-Part Urethane

UreShell is a marvelous hard coat 2-part urethane-based coating. 20-25 minute working time allows for rolling or brushing. Applications cover interior surfaces. It leaves a hard glossy smooth shell finish. It works great on props, backdrops, signs, molds, etc. 1 gallon covers approximately 320 sq. feet at 5 mil thickness. Dries to a tan color and can be finish coated with most paints and synthetic stucco.

**Easy Coat Coating**

Specifically Designed For Shape Coating 50-60 sq. ft. @ 1/4”

**RULE OF THUMB**

Calculating Square Footage of Coatings per Gallon

1 mil thickness of liquid will theoretically cover 1604 sq. ft. 5 mils thickness of liquid will theoretically cover 320 sq. ft.
CRAFTERS PRECISION HOT KNIFE
Rod Style Knife

• Continuous Duty Cycle
• 1/8” Diameter Stainless Steel Tube
• Versatile Sled Guide Accessory

TW848 INDEPENDENT AXIS CNC CUTTER
Single-Wire 8’ with Lathe & Turntable

The Independent Axis Series, with variable wire length control makes your cutter even more versatile. In addition to regular 2D cuts, rotary cuts and serial cuts, the TW848i can also cut tapered shapes or any other shape with two different path lines at the two ends of the cutting wire. This feature allows for maximum flexibility and creativity in foam cutting.

MW848 CNC CUTTER
10-Wire 8’ with Lathe & Turntable

This is a truly industrial series with up to ten wires simultaneously cutting the exact same shape. Available wire length ranges from 50” to 118” depending on your needs. Pneumatic wire tensioning is available on machines exceeding 10 feet.

C848 CNC CUTTER
Single-Wire 8’ with Turntable

This highly successful series enjoys a large customer base due to a wide variety of available sizes and options. The MegaPlot C848 can come with a Turntable, Lathe, Shape Wire Tool, Independent Axis Control and many other features which turn your cutter into a truly versatile machine.
### RECYK™
**EPS Hot Wire Waste Cuber**
- Gravity Fed into 23" x 23" Hot Wire Grid Pattern
- 3/4" Grid Openings Cut Foam
- Manually Move Foam Sideways While Feeding Foam Into ReCyk™ or Recycle Twice to Get 3/4" Cubes
- Machine Measures: 31.5" x 26.5" x 5'
- Portable: Moves Around Easily

### BGR2500
**Foam Densifier**
- Reduces Expanded Polystyrene, Polypropylene and Polyethylene
- Internal Grinder Breaks Down Materials Before Heat Reduction
- Densified Material Can Be Sold On Open Market for Revenue Stream

### THE BENEFIT OF GOING GREEN
**Convert your scrap foam into profits.**

Recycling polystyrene, polypropylene and polyethylene is not only the responsible thing to do, it can also be profitable. Demand Products can connect you with companies that will buy processed material and pick it up from your location. That means no more shipping costs to haul off foam waste, and no more foam scrap heading to a landfill! A win-win for everyone considered.

EPS foam can be reduced as much as 98% from its original volume. Manufacturers utilize the recycled material to produce a variety of end products such as picture frames, sun glasses, computer housings, tennis shoes and more. Call today for more information.
